### About This Game

Dream Dealer is a first person exploration game where you take your dream and start a long journey between worlds.

You'll never know if what you see is real, or if you are in a trance.

An experimental game made to delight your sensory system.

Surreal game inspired by titles like: The Stanley Parable, Dear Esther or Mind: Path to Thalamus where the principal objective is to show what the mind isn't able to imagine.

It is also a Puzzle game that throws you into a fantastic and surreal environment where your dreams will be difficult to control.

The story is explained by inner thoughts that will guide you through your dreams.

Sometimes they will try to confuse and deceive you...

This game can be described in these words: Walking Simulator, Indie, Short, Atmospheric, Casual Story, Abstract, Adventure, Singleplayer, Mystery, Experimental, Interactive Fiction, Horror, Psychological, Relaxing and Fantasy.

Dream Dealer ist ein Erkundungsspiel aus der Egoperspektive, welches dich durch deinen eigenen Traum leitet und zu einer zwischenweltlichen Entdeckungsreise einlädt.

Dabei wirst du nie genau wissen, ob das Erlebte real ist oder du dich in Trance befindest.

Ein experimentelles Spiel, das deine Wahrnehmungen beeinflusst und deine Reflexe auf die Probe stellt.

Ein surreales Spiel, welches unter anderem von: The Stanley Parable, Dear Esther oder Mind: Path to Thalamus inspiriert wurde und unbekannte Bereiche des menschlichen Geistes erforscht.

Außerdem beinhaltet es einige Puzzles, die dich in eine phantastische und surreale Umgebung entführen. Dahin, wo Träume nur schwer kontrollierbar sind.

Die Story setzt sich aus tiefen Gedanken und Gefühlen zusammen - sie werden dich durch deine zahlreichen Träume leiten.

Manchmal werden sie versuchen dich zu verwirren oder zu täuschen...

Dream Dealer kann mit den folgenden Worten beschrieben werden: Walking Simulator, Indie, Kurz, Atmosphärisch, Casual Story, Abstrakt, Abenteuer, Singleplayer, Mystisch, Experimental, Interaktive Fiktion, Horror, Psychologisch, Entspannung und Fantasie.

i can recomend this game... or i could recomend just using beepbox as it has more depth and is free, has more pages a finer selection of sounds.

either way a good time killer or something just for fun :). Really fun game for just messing about. it's got happy and bouncy music to go along with the cute visuals. I've only 2 problems with the game, neither of which are serious. 1. camera can be a bit confusing, and 2. sometimes, in certain levels, when you respawn, you fly up into the air really high. I've only noticed it in junkyard and warehouse, but I've only unlocked these levels. Sitll good game & worth the 5 bucks.. I'm a big fan of business simulator and tycoon games but this one isn't satisfactory yet. I tried with this one, but the mechanics choked me and they're not in the tutorial or very intuitive. This game feel unfinished.. A very unique game with plenty of interesting supprises! I really loved the intriguing deep story and the wonderful character designs and personality traits for each individual. The elements of horror also worked perfectly with the soundtrack, especially when with the dead ends! This is a great original RPG game for those who enjoy a good horror/halloween based game. After playing this game i can't wait to get my hands on the Witches Tea Party!. It seems like it wants to be some kind of bullet hell type of game, but nothing seems to work like it should, there's little to no guidance on what to do, and the UI is absolutely terrible. I'd only recommend getting this if it's cheap, but even its cards are expensive.. Seems okay but needs more work. Some of the screens are too busy. i love this game so much. Where is 4th one?. I loved this game. Even though the story and dialogue are a little ho-hum, the puzzle design is great. If you are a fan of puzzle platformers definitely get this one. Sort of like a 2D "Portal" with a bunch of small "test chambers" that you progress through and pick up new gravity manipulation abilities as you go. Difficulty level isnt that hard unless you try to pick up every research cannister as you go. Some of those are quite tricky but really make you think.

One of my favorites of 2014 so far!! Devs have done a great job with this. I don't know how it compares with other cooking games since I haven't played those, but I really love playing this. It's like all those mobile cooking craze type games where you take an order and make it. I did receive the game for free by signing up for the beta but knowing the fun I've had, I would purchase this game. Multiplayer addition makes it great. I highly suggest the game.

neat concept but, doesn't allow me to collect any coins, so I can never unlock new vehicles, no matter how many times I finish the first level the game does not allow me to unlock other levels, so there is only one level, would be nice to see an update to fix it.. This game is awesome. Highly addictive and very interesting concept and awesome graphic style. I think it could do with a simple tutorial at the start, show the people the controls and the goals, this is what stumped me at the beginning as I had no idea that I was meant to defeat a boss, or that I was meant to find him at all (on the first level I camped at the shop and bought pretty much everything from shooting the adjacent, until I found the boss) . I was also annoyed because I could not switch between guns that I had bought, but I think it's supposed to be like that. Don't take that the wrong way, I love this game and it's super fun. I give this a game a 9.7/10. It's super cheap and only 32MB.. Good HOG. A bit short, 6 hours for 2 playthroughs to 100 percent completion, but I did enjoy it. Nothing disappointing about it but the story was good, with a few twists that I didn't see coming.. it could actually be decent, but it is definitely not worth the \$\$ as-is.

refund requested after 19mins of gameplay and I completed 2 levels

this is not a fake review and I rarely review games. This game is hilarious. It's less straightforwardly about pick-up advice than SS1 and more a combination of that with a heap of dry/absurdist humor.. This is a really great choose your own adventure.

Real flaws exist though. For example, several times in my first playthrough there have been options which have nothing to do with what I've chosen and the path my character is on. They are sort-of spoilers, because I can see how other choices could have gotten to these outcomes, but I basically learn new (spoiler for different path) information from the possible choices I have, which is nonsense. Choosing these options (when I don't necessarily even know what they're talking about) seems to have decent outcomes as well. This also means that I'm now on a path that has nothing to do with decisions I've made previously.

The thing is... I still recommend this game if you like choose your own adventure. It really has some depth, but that is betrayed by the (very few but very obvious) flaws. It really is better than most of the games of this type that I've played.
